~~Young People Should Spend More Time Outdoors.~~

Nowadays, many young people spend most of their free time indoors because studying, entertainment, and even socializing can be done online.

Some people argue that staying at home is more convenient since ^{过于绝对 ⇒ almost everything} everything is available on the internet. ^{while} Others believe that ^{some} outdoor activities can be expensive or even unsafe. However, ^{despite these concerns} strongly believe that young people should be encouraged to spend more ^{time} outside their homes. ??

Firstly, spending time outdoors helps young people develop stronger social skills and build meaningful friendships. For example, students who join sports teams, outdoor clubs, or ^{take part in} community events, often meet new people and learn how to cooperate with others. These experiences help them become more confident and ^{develop} improve their communication skills. Therefore, spending time outdoors is an excellent way for

 young people to form ^{健康???} ~~real~~ and lasting relationships. ^{WHERE IS IT??}

Secondly, outdoor activities are important for physical and mental health. ^{After studying for long hours → 学习之后} After long hours of studying, young people need opportunities to ^{→ 意思清楚} ~~relax~~ and ^{recharge} ~~reduce~~ stress. For instance, ^{taking a stroll} ~~taking a walk~~ in ^{going for a walk} ~~the~~ park or ^{neighbourhood} ~~the~~ playing football with friends, or cycling around the neighbourhood.

As a result, ^{regularly} ~~spending~~ time outside helps young people maintain a healthier and more balanced lifestyle.

^{→ 结尾太长太啰嗦} In conclusion, although some people prefer staying indoors ^{for convenience} because it is convenient and others worry about the cost or safety of outdoor activities, ^{the or} ~~and~~ advantages of spending time outside are far ^{outweigh these concerns} ~~greater~~. It helps young people make friends, improve their health, and enjoy a more balanced life. For these reasons, I believe young people should be encouraged to spend more time outdoors.

Title

Excellent!

Introduction

Some people argue that staying at home is more convenient since everything is available on the internet. Others believe that outdoor activities can be expensive or even unsafe.

Some people argue that staying at home is more convenient since almost everything is available on the internet. Others believe that some outdoor activities can be expensive or even unsafe.

①句型：前后句是对立的，所以最好加入转折

②”since everything” - 表达过于绝对。并不是“所有东西”都能在网上获得。

“outdoor activities” 类似的 - 范围很广

散步、公园活动未必昂贵，所以这里可以加上 some

However, I strongly believe that young people should be encouraged to spend more tim outside their homes.

However, despite these concerns, I strongly believe that young people should be encouraged to spend more time outside their homes.

①despite these concerns 能更自然地承接前两句

②！ time 拼写错误！

Body Paragraph 1

For example, students who join sports teams, outdoor clubs, or community events often meet new people and learn how to cooperate with others.

For example, students who join sports teams, outdoor clubs, or take part in community events, often meet new people and learn how to cooperate with others.

join vs take part in

①join 强调“加入并成为某个组织、团体或群体的一员”

②community events 是“社区活动”，不是一个可以成为成员的组织

*take part in community events

*participate in community events

*attend community events

Therefore, spending time outdoors is an excellent way for young people to form real and lasting relationships.

Therefore, spending time outdoors is an excellent way for young people to form genuine and lasting friendships / strong and lasting relationships.

“real relationships”指的是什么呢？

建议改为 genuine and lasting friendships 或者 strong and lasting relationships

Body paragraph 1 补充一个例子!

原文的 “for example” 更像是 “分析”

而且 “point” 之后应该是 “分析”

Body Paragraph 2

After long hours of studying, young people need opportunities to relax and reduce stress.

After studying for long hours, young people need opportunities to relax and reduce stress.

①原文：比较 chinglish -> 经过了很长一段时间的学习

②relax and reduce stress 在含义上有一定重叠

建议改成 relax and recharge

For instance, taking a walk in a park, playing football with friends, or cycling around the neighbourhood can improve fitness while also helping people feel happier and more refreshed.

For instance, taking a stroll in the park, ...
going for a walk in the park, ...
playing football with friends, or cycling around the neighborhood can improve

young people's fitness while also helping them feel happier and more refreshed.

①散步的地道表达:

taking a stroll / going for a walk

②... can improve fitness -> 谁的 fitness?

helping people feel happier -> helping them

一般写作是先提到 A, 然后接下来可以用代词减少重复

所以前面可以写 younger people's fitness, 后面写 helping them, 因为主题还是 young people

总的来说:

结构可以修改为:

①年轻人现状: 花很多时间在室内, 会出现什么现象; 多点出去走动, 又会有怎样的提升? (**Forrest** 之前喜欢用的反证法, 也可以加上)

②例子: 基本上是给分析套一个场景: 比如天天在家学习上网课, 会有什么不好的结果, 然后多出去活动会怎么改善

③Therefore, ... 扣题

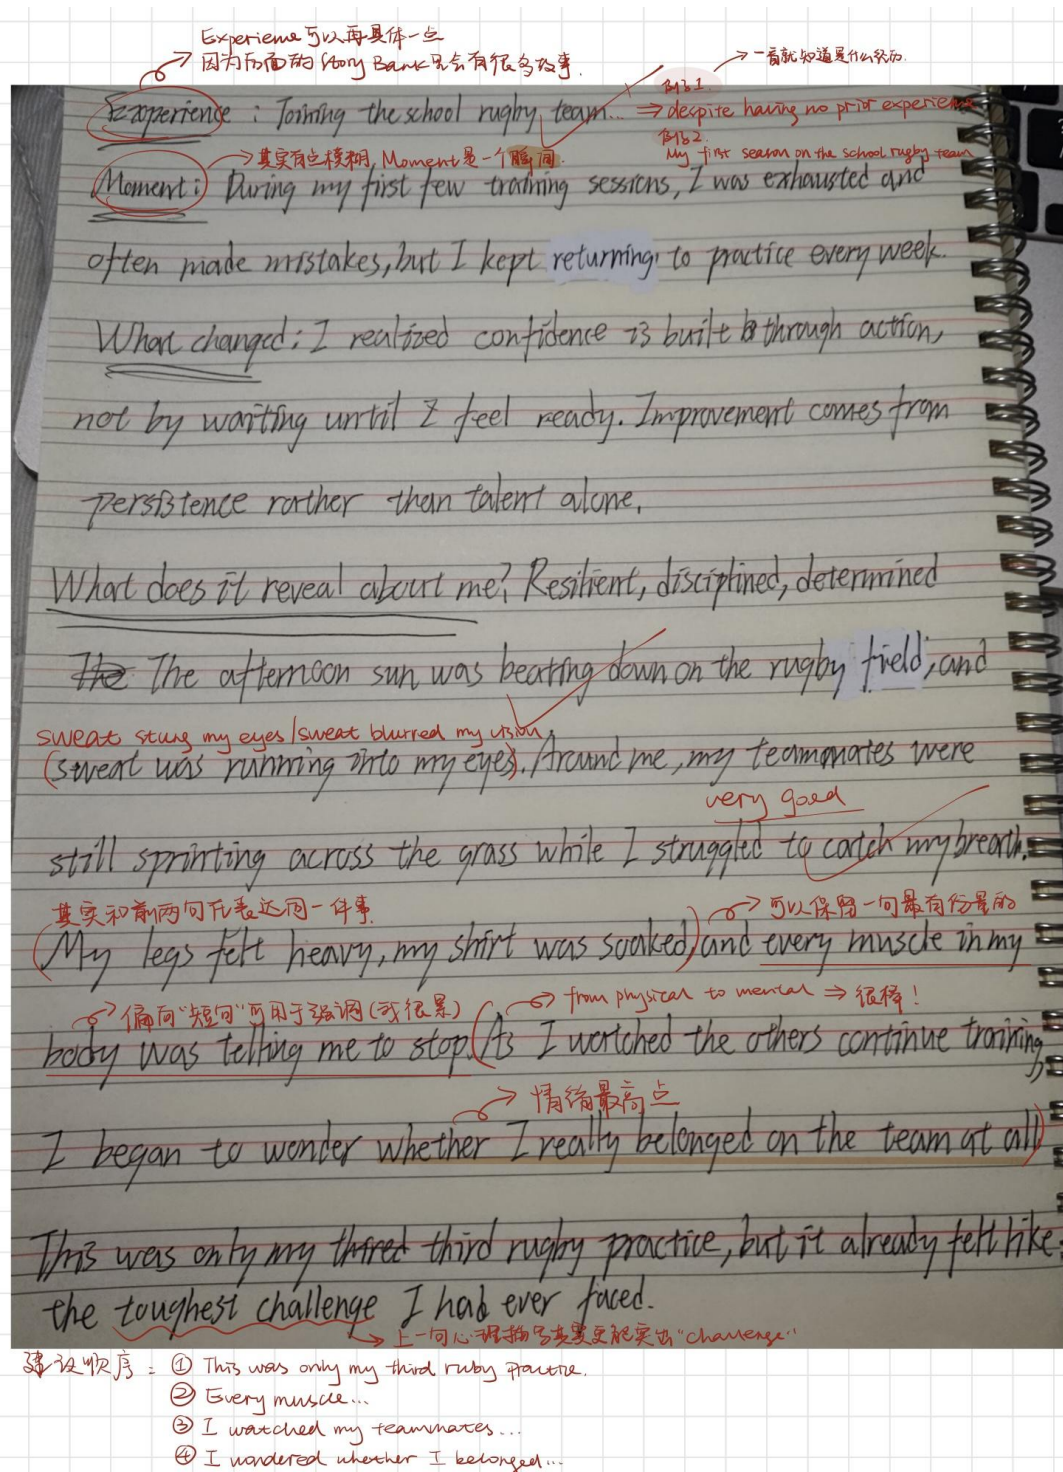

Conclusion

Conclusion 太长太啰嗦啦! 不需要把 **body paragraph 1** 和 **2** 的内容重复一遍, 只需要**总结**。

比如: It helps young people make friends, improve their health, and enjoy a more balanced life.

可以总结成： Overall, spending time outdoors contributes to young people's overall well-being.

Personal Statement - Part 1

Experience

建议 Forrest 写具体一点。因为 joining the school rugby team 可以挖掘很多 topic 出来，比如 resilience, teamwork, friendship.....

建立 story bank 的目的是为了方便 Forrest 一看到第一列, 就知道这篇文章是通过什么事件, 从什么方向讲述自己的

Moment

Moment 指的是一个瞬间。比如上次课讲的, PS 的开头, 就是作者当志愿者的时候, 看到了那一户低收入人家住房现状的瞬间。那一段都是围绕那瞬间看到的画面以及引起的心理活动写的

What changed

写得不错

What does it reveal about me

sweat was running into my eyes → sweat stung my eyes / sweat blurred my vision.

PS 不是写 “what happened”, 而是写 “Can the reader feel it?”

Forrest 原文, 只是描述一个动作 → running

而 sting 是一种感觉 → 汗刺激眼睛: 很辣 很痛 睁不开 (Sensory Detail)

Forrest 以后可以尝试把 Object 变成 Effect

练习:

The sun was shining.

The sun **warmed** my face. -> Winter (positive)

The sun **burned** the back of my neck. -> Summer (negative)

My legs felt heavy, my shirt was soaked, and every muscle in my body

was telling me to stop. → Every muscle in my body was telling me to stop.

“My legs felt heavy, my shirt was soaked” 其实和前面说的是同一件事, 可以删除; 留下 “Every muscle in my body was telling me to stop.”, 因为这一句是简单句, 而且是短句, 可以用来强调自己有多累和难受。

New Writing Task Personal Statement - In-class Practising

What is a Personal Statement

看英语能力 / 看文笔 / 看经历 认识你这个人:

看奖项 你怎么思考

GPA / SAT / 活动 / 奖项 / 推荐 你怎么看世界

信 为什么会成为今天的你

X ↑ 招生老师早就知道了 ↑ **X** **V** ↑ 招生老师想 ↑ **V**

Story Bank

Experience	Moment	What Changed?	What does it reveal about me?
A classmate experienced hypoglycemia	Before anyone else reacted, I gave him the candy I had.	I realized helping someone was my instinct rather than a decision.	Proactive, calm, compassionate
Traveling in Thailand	I saw a little girl helping in her mother's restaurant.	Thailand's education isn't good.	Caring

Structure

Part 1 - Hook

Scene → 一个场景引入

(上次作业已完成)

歪个楼: 分享之前老师申请学校的时候写的开头:

Picture this: as the clock turns ten at night, students still have their eyes fixed on test papers, with five vocabulary books piled up on their desks.

There is no recess. Determination of getting enrolled in their dream

international schools keeps them glued to their chairs. When feeling utterly exhausted, cold tap water is the prime choice to freshen their mind. This is how students struggle with English learning in Shenzhen, where I have been working for three years.

Part 2 - Conflict

Problem → 发生什么问题? Show the challenge you're facing.

Conflict: 不会打、体能跟不上、没有 teamwork 经验

It was only my third rugby practice, but...

Part 3 - Reflection

Thinking → 为什么会发生? 我学到了什么? 我原来哪里想错了?

Show how your thinking changes.

真正的问题不是体力, 而是意识到橄榄球不是一个人的运动, 需要**球商**和团队协作

参考句型: Looking back, I realized

Looking back, I realized that my biggest problem was never my fitness. I had always believed that if I worked hard enough and ran fast enough, I could overcome any challenge on my own.

...

Part 4 - Growth

我学会了 xxx (不要这样写!) Please show how that change still shapes who you are today.

Change → 成长要落到**行为**!

这种改变后来影响了自己做事情的方式

Before ↓

I tried to solve problems on my own.

Now ↓

I actively communicate with others.

I pay attention to how my actions affect the team.

I focus on contributing instead of proving myself.

参考句型: Since then, ...

Since then, this mindset has influenced the way I approach challenges far beyond rugby.
