Homework Analysis - Question 1 (f) Summary

Read Text B, Metal detecting, in the insert and answer Question 1(f) on this question paper.

- (f) According to Text B, what concerns, worries and objections might there be about the hobby of metal detecting?

You must use continuous writing (not note form) and use your own words as far as possible.

Your summary should not be more than 120 words.

Up to 10 marks are available for the content of your answer and up to 5 marks for the quality of your writing.

Metal detecting can cause several concerns. It may be illegal in some places because it can be dangerous or damage important historical and cultural sites. Detectorists may also need permits, licences and permission from landowners, while valuable finds must be reported and examined. Archaeologists worry that removing objects from the ground separates them from their original surroundings, causing important historical information to be lost. Since the hobby can be competitive and profitable, some people may be tempted to break the rules. Digging in public areas can also create trip hazards and damage rare or endangered plants. These problems can give metal detecting a negative reputation and make archaeologists want greater restrictions.

Forrest原文	得分点
Metal detecting can cause several concerns. 总共只有120 words, 每一个词都很宝贵。不过Forrest只写了6个词, 也还好。	概括性开头, 没有独立得分点
It may be illegal in some places because it can be dangerous or damage important historical and cultural sites. ↓ 1. It may be illegal in some places 2. because it can be dangerous 3. or damage important historical and cultural site 这句话包含了3个得分点, 不错	2 (worry about) breaking law(s) / not allowed / illegal ↓ 1. breaking law(s) / not allowed / illegal 2. safety concerns for detectorists / dangerous to do it 3. damage to historic sites / damage cultural heritage sites
Detectorists may also need permits, licences and permission from landowners, while valuable finds must be reported and examined. Forrest通过列出: permits、licences、permission from landowners、finds must be reported、finds must、be examined来表现这项活动受到大量规定和手续的限制, 也很不错~但是要注意字数	complicated rules / rules vary locally / rules too strict / too many rules
Archaeologists worry that removing objects from the ground separates them from their original surroundings, causing important historical information to be lost. Forrest很好地展现了原文的因果逻辑~ 物品脱离原本环境→ 考古背景消失→ 历史信息丢失	removing objects from context / losing valuable information
Since the hobby can be competitive and profitable, some people may be tempted to break the rules.	competitive by nature so unlikely to follow rules / potential to make lots of money so more likely to bend the rules
Digging in public areas can also create trip hazards and damage rare or endangered plants.	creates trip hazards for others in public spaces

These problems can give metal detecting a negative reputation and make archaeologists want greater restrictions.

- 1. negative image of the hobby / seen as boring / waste of time
- 2. restrictions not strong enough / restrictions should be stronger

未涵盖的点:

- 1. Some detectorists irresponsible
- 2. Increase in popularity / TV influence

Writing: 5/5

concision + organisation + own words + clarity + grammatical accuracy

整体paraphrase做得很好, 能按照题目的“use your own words”以及“not be more than 120 words”

Homework Analysis - Question 2 (c) Inference

- (c) Use one example from the text below to explain how the writer suggests her feelings as she attempts to cross the channel of water on her bicycle.

Use your own words in your explanation.

I show the boys that, like life, if you approach it **full on**, you can most times power through on **sheer determination**. But today the channel's deeper than it looks. I've **misjudged it massively**. My bike comes to a **graceless halt** midway, balances briefly, then falls flat on its side, depositing me spectacularly in fifty centimetres of water.

The writer suggests that she feels confident at first but then embarrassed and surprised when she attempts to cross the channel. She says she approaches it “full on” and relies on “sheer determination”, showing that she is confident in her ability to overcome the obstacle. However, she admits that she has “misjudged it massively”, showing that she suddenly realises she has made a serious mistake. The description of her bicycle making a “graceless halt” and falling into the water also creates a humorous image of her failed attempt. This suggests that although she is embarrassed by what happened, she can laugh at herself and does not take the accident too seriously.

3/3

评分标准: Award 3 marks for an appropriate example with a comprehensive explanation which shows understanding of how the writer suggests her feelings...

拿满分需要:

- 1. 合适的原文例子 + 比较完整的解释 + 真正理解作者的感受是怎样被语言表现出来的。
- 2. The explanation must be predominantly in the candidate's own words. (Forrest做得很好)

点评:

Forrest原文

The writer suggests that she feels confident at first but then embarrassed and surprised when she attempts to cross the channel.

得分点

- *optimism / self-belief
- *surprise
- *sudden realisation
- *slightly embarrassed
- *sees the humour

She says she approaches it “full on” and relies on “sheer determination”, showing that she is confident in her ability to overcome the obstacle.

self-belief / optimism

Forrest还可以分析得更深。Forrest可能没注意到原文的 “like life”

作者不只是说“我要骑过去”，而是把骑过水道和面对人生困难联系起来：if you approach it full on, you can most times power through on sheer determination

另外，作者不只是普通的confident，而是有点overconfident。后面的失败正好打脸，所以反差特别明显～不会影响Forrest拿分，只不过想引导一下Forrest的思考深度

However, she admits that she has “misjudged it massively”, showing that she suddenly realises she has made a serious mistake.

*made an error
*hugely underestimated
*got it completely wrong
*serious
*surprise
*sudden realisation
*may have been overconfident

Forrest没有把 “misjudged” 原封不动换一个词就结束，而是解释出了：她意识到自己之前判断错了。

The description of her bicycle making a “graceless halt” and falling into the water also creates a humorous image of her failed attempt.

*inelegant stop
*realises she looks silly
*self-deprecating
*sees the humour in the moment

This suggests that although she is embarrassed by what happened, she can laugh at herself and does not take the accident too seriously.

*self-deprecating
*sees the humour in the moment
*hilarious
*harmless fun

比较严重的问题：题目说Use one example, Forrest用了三个！

- ① full on/sheer determination
- ② misjudged it massively
- ③ graceless halt

Forrest应该选一个例子，把这个例子讲透
而不是选三个例子，每个分析一点点

Question 2 (d) Language Analysis

(d) Reread paragraphs 3 and 7.

- Paragraph 3 begins 'From this distance ...' and is about the wreck.
- Paragraph 7 begins 'Treasure hunting ...' and is about the egg cases of fish.

Explain how the writer uses language to convey meaning and to create effect in these paragraphs. Choose **three examples** of words or phrases from each paragraph to support your answer. Your choices should include the use of **imagery**.

Write about 200 to 300 words.

Up to 15 marks are available for the content of your answer.

In paragraph 3, the writer uses vivid imagery to show how surprising and exciting the shipwreck is. The phrase "looks unreal, like some elaborate prop on a sweeping stage of sand" is a simile which makes the wreck seem like part of a dramatic performance rather than a real object. This shows how amazed the writer is by its unexpected appearance. The description "curved wooden spurs like the ribcage of some enormous extinct beast" is another striking simile. Comparing the ship to the skeleton of a huge animal makes it seem ancient, mysterious and almost frightening. The verb "picked clean" suggests that the sea has stripped away everything except the ship's remains, emphasising its damaged and abandoned condition.

In paragraph 7, the writer uses descriptive language to make the skate egg case seem delicate and fascinating. The phrase "soft in texture, olive brown and translucent" uses detailed sensory description, allowing the reader to imagine its unusual appearance. The expression "holding it to the light" shows the writer's careful and curious attitude towards the object. Finally, the phrase "a fragile promise for the future" is a metaphor which presents the baby skate as a symbol of new life and hope. The adjective "fragile" also emphasises how vulnerable the tiny creature is. Overall, both paragraphs use vivid imagery to show the writer's sense of wonder at the unexpected things revealed by the beach.

11/15

Paragraph 3:

例子1: looks unreal, like some elaborate prop on a sweeping stage of sand

Forrest原文

part of a dramatic performance rather than a real object

得分点

make-believe ship / object prepared for a play or film / grand theatrical scenery

这一个例子选得很好。Forrest能认得出来这是simile，并且看出了“舞台道具”的感觉。但是，Forrest还可以分析得更细

目前主要分析了“像舞台道具”，但是忽略了unreal / elaborate / sweeping。

*unreal: 说明作者几乎难以相信眼前看到的東西是真的，突出沉船突然出现时的震撼和不真实感。

*elaborate prop: 不是普通的 prop，而是“精心制作、复杂的道具”，让沉船显得非常戏剧化、视觉上很夸张。

*sweeping stage of sand: 把整片广阔沙滩想象成一个巨大的舞台，增强了场景规模感

Forrest可以参考这个步骤：具体词 → 联想 → 画面 → effect

例子2: curved wooden spurs like the ribcage of some enormous extinct beast

Forrest原文	得分点
Comparing the ship to the skeleton of a huge animal makes it seem ancient, mysterious and almost frightening.	ancient / exposed bones / skeleton of a large sea creature or dinosaur

Forrest直接从整个比喻跳到了效果，中间缺少“为什么”（这和写article的不严谨思路也很像哦）有很多细节可以分析：

- *ribcage: 让船架看起来像裸露的骨头，带出死亡、腐朽、残骸感
- *enormous: 强调体积巨大，让沉船更震撼
- *extinct: 让它像来自遥远过去，增强古老感
- *beast: 比一般的动物更野性、更可怕，增加威胁感

因此，Forrest说“ancient, mysterious and almost frightening”没错，但如果不解释这些感觉是由哪些具体词产生的，就还没到最细致的语言分析。

例子3: picked clean

Forrest原文	得分点
the sea has stripped away everything except the ship's remains, emphasising its damaged and abandoned condition.	“picked clean of its flesh by the sea”: nothing left of the external fittings of the ship; sea has eaten it alive; predatory power of oceans/nature

Forrest理解了picked clean的基本意思，知道这是在说大海把船上原本的东西“剥掉、弄走”，只剩残骸，这个思路不是错。但是，这只是分析到了得分点的第一层：nothing left of the external fittings of the ship，主要停留在字面意思

真正要深入分析的是“picked clean of its flesh by the sea”。它和前面的：ribcage、beast、flesh共同建立了一个非常清楚的“动物形象”：沉船像一具被啃食过的动物尸体，大海像把它吃得只剩骨头的捕食者。所以，Forrest的分析还是有点太普通了，没有抓到这个意象最有力量的地方。

参考逻辑：

- *ship = dead creature
- *sea = predator/scavenger
- *effect = nature seems powerful, destructive, almost violent

Paragraph 7:

例子1: soft in texture, olive brown and translucent

Forrest原文	得分点
The phrase “soft in texture, olive brown and translucent” uses detailed sensory description, allowing the reader to imagine its unusual appearance.	freshly cast, and quite different: soft in texture, olive brown and translucent” newly made; inviting the children to touch it; contrast of still moist, smooth and almost see through; can just see the secret inside

Forrest的这句分析比较泛。“allowing the reader to imagine its unusual appearance”几乎可以放在任何外貌描写后面，所以还不够有针对性。

Forrest的重点应该放在：

- *soft in texture: 和前面的 desiccated, blackened and hardened 形成对比，说明这个卵囊很新鲜，不是干枯死掉的
- *olive brown: 颜色自然、有机，让它显得像真实的海洋生命体
- *translucent: 半透明，不是完全透明，所以里面的东西若隐若现，增强神秘感和好奇心

例子2: holding it to the light

The expression “holding it to the light” shows the writer’s careful and curious attitude towards the object.

I pick it up carefully, holding it to the light for observation: gently lifts it from the sand so they can look at it; trying not to harm it; scientific interest

Forrest可以更加深入分析：作者不是随便拿起来看，而是举到光下观察，说明她对这个卵囊很认真、很珍惜，也像在研究一个珍贵的自然标本。“careful and curious attitude”也有点太简单了，概括性太强，不是深入的分析。

例子3: a fragile promise for the future

Finally, the phrase “a fragile promise for the future” is a metaphor which presents the baby skate as a symbol of new life and hope. The adjective “fragile” also emphasises how vulnerable the tiny creature is.

tiny baby skate, a fragile promise for the future, almost ready to hatch: the purse holds a small, delicate creature; vulnerable baby fish will grow up to keep the species alive, comparison to Charlie; need/hope to protect the environment

Forrest不只是识别了metaphor，还解释出了象征意义：这个小鳐鱼象征新生命和希望～

Forrest真正做到了深入分析一个词。“fragile”不只是说明它小，而是强调它很容易受到伤害、需要被保护。

但是“promise”不只是“未来”，而是一种，未来会有美好事情发生的希望或可能性。因此，Forrest还可以深入分析：正因为这个“promise”很fragile，所以作者的希望并不是轻松、绝对的，而是带着一种需要保护环境、保护生命的责任感。

New Reading Task - Text C - Question 2 (c-d) Vocabulary

Read Text C and then answer Questions 2(a)–(d) and Question 3 on the question paper.

Text C: The Mars expedition

Bob, Rajah and Sarah belong to a team of astronauts who have landed on Mars. Their Captain has sent them out on the first ever Martian mission to look for signs of life. They are driving in a rover: a motor vehicle designed to travel on Mars's surface.

历史性、科学性、重大 Sarah / Rajah 那种幼稚争抢会显得更讽刺

Bob stopped the rover, and Rajah and Sarah climbed out, Sarah carrying the shovel. Bob had decided to remain in the rover to receive communications from the Captain at the base some twenty kilometres back. Bob would also be testing any samples Sarah and Rajah brought to the rover.

对比

Bob的人物塑造：
负责验证证据，而不是出去抢“第一”

对应题目：would not be visiting any sites after this one

This was the last site they would be visiting and then they would be finished. Bob was relieved about that. After putting Bob in charge of today's mission, the Captain had spoken to Sarah and Rajah about working together as a team and, apparently, they had assured her that they would. But their constant arguments today told another story: it was not supposed to be a competition to go down in history as the individual who first found life on Mars.

(a) (ii) 5

Bob真的是因为这是最后一次人物才relieved的吗？
不仅仅是！
还因为Bob终于不用再跟他们两个争了

Bob did chuckle to himself, though, as he remembered their spacecraft landing two days earlier and how both Sarah and Rajah had jumped from the door, arms outstretched to prevent anyone else passing them, each shouting something rather grandly foolish for the benefit of posterity. They'd ended up in an undignified heap together on Mars's surface, while Bob and the other astronauts had ambled over and past them to inspect the base that the rover had built.

Bob finds their behaviour ridiculous rather than impressive 人无语的时候是真的会笑

That base, along with the spacecraft, would be their home now for another three months. It was pretty basic living but sufficed if they gave each other space. Most of the other astronauts were respectful and professional which certainly helped.

对两人的评价 差评

Suddenly, the communication device sounded in the rover: it was Rajah.

'I'm about to hit water!' cried Rajah.

'Ridiculous. You've barely broken the ground surface!' Sarah's pained voice pierced Bob's ears. competition continue

Bob decided to leave the rover. He saw the two silhouetted figures ahead of him, apparently engaged in a struggle over a shovel.

和前面的登陆场景是一个结构上的呼应

Bob refuses to join their competition! Good job Bob!

Bob detached his own shovel from the side of the rover and walked in another direction. The ground was promisingly soft here. His booted foot sank the shovel blade through a surface layer of fine crimson crumbs. An unmistakably damp wedge of soil was removed, and clear liquid slipped gently into its place.

还记得promising嘛？ The Beach这篇文章说到海滩的湿的时候，是这样写的：

'Incredible!' exclaimed Bob. 'Rajah, Sarah, can one of you get a canister out of the rover and come over here?'

emotion + professionalism

Sitting in the rover a minute later, the astronauts watched as Bob emptied the liquid from the canister into the testing receptacle. Bob felt his heart pound as he looked at the results. 'OK, Rajah, Sarah, the readings are positive: biological organisms are present. I'm going to prepare a slide and put some of this liquid under the microscope to see if I can view them.'

Seconds passed like hours as Rajah and Sarah hung over Bob's shoulder, both closely observing him place the slide under the intense scrutiny of the microscope's eye. Silence entered the cramped space of the rover and floated inquisitively around the three absorbed figures. Bob inhaled sharply as a clear image on the slide came into view. In front of him gyrated a dozen tiny worm-shaped life forms. Their movements were subtle and deliberate,

'Captain, this is big!' yelled Sarah. Sarah的话很笼统

'I have just found the first ever evidence of life on Mars!' hollered Rajah. falsely claims personal ownership of Bob's discovery

Bob realised that the many years he had trained for this expedition had been merely a poor rehearsal for this one rapturous moment. He silently contemplated the enormity of the discovery. Meanwhile, Sarah began a frenzy of 'selfie' live-streaming, parading the microscope like a glorious trophy. Rajah emailed a solemnly worded message, delineating the grandeur of his achievement. He urged the Captain to upload this immediately to their captive audience of leaders, scientists and well-wishers on Earth.

'Oh!' Rajah said, a minute later. He looked crestfallen. 'The Captain only wants to speak to you, Bob!'

deeply disappointed / deflated 对Forrest在课上对这个词的拆解非常好
